

The screenshot shows the LibreOffice Writer application. At the top, there is a menu bar and a toolbar with various icons for file operations, editing, and formatting. Below the menu bar, the 'Default Paragraph Style' is selected, and the font 'Liberation Serif' is chosen. The main workspace contains a table with four columns: 'customer', 'product', 'amount', and 'ordered'. The table is currently empty. A red arrow points to the 'Draw' icon in the bottom toolbar, which is used for inserting and editing graphical elements.
